About me

I am a PhD student in the Interpretable Neural Networks lab at Northeastern University. I am interested in understanding the inner workings of large language models.

Education

Northeastern University, Boston

September, 2022 - Present

Ph.D. Student in Khoury College of Computer Sciences

Shahjalal University of Science and Technology (SUST)

April, 2014 - November, 2018

BSc(Engg.) in Computer Science and Engineering

Selected Publications

- Arnab Sen Sharma, David Atkinson, and David Bau. "Locating and Editing Factual Associations in Mamba", COLM-2024. romba.baulab.info.
- Hernandez, Evan*, Arnab Sen Sharma*, Tal Haklay, Kevin Meng, Martin Wattenberg, Jacob Andreas, Yonatan Belinkov, and David Bau. "Linearity of Relation Decoding in Transformer Language Models", ICLR-2024 (Spotlight). lre.baulab.info.
- Eric Todd, Millicent L Li, **Arnab Sen Sharma**, Aaron Mueller, Byron C Wallace, and David Bau. "Function Vectors in Large Language Models", ICLR-2024. functions.baulab.info.
- Kevin Meng, **Arnab Sen Sharma**, Alex Andonian, Yonatan Belinkov, and David Bau. "Mass-Editing Memory in a Transformer", ICLR-2023 (top 25% paper). memit.baulab.info.

Teaching Experience

Northeastern University

Graduate TA

o DS 4440 - Practical Deep Networks

Spring, 2024

Shahjalal University of Science and Technology

Lecturer

July, 2019 - July, 2022

- Taught Courses: Database Management Systems, Software Engineering and Design Patterns, Web Tech. See details in my faculty profile.
- o Mentoring undergrads working on Data Science and Machine Learning projects.
- Took workshops on advanced data structures and algorithms to train competitive programmers. Also served as coach for competitive programming teams.

Samsung R&D Institute, Bangladesh

• Conducted KT (knowledge transfer) sessions on BIT, hashing, and other data structures to coach my colleagues for Samsung's professional certificate test.

Industry Experience

ML Alignment and Theory Scholars (MATS 7.0)

Apprentice

October, 2024 - November, 2024

Working to enable a Language Model to explain its thinking state by introspecting its own inner representations
 turning the LM into a talkative and interactive probe into its own inner reasonings.

Samsung R&D Institute, Bangladesh

 $Software\ Engineer\ I$

September, 2018 - June, 2019

- ♦ Adapting chromium for Samsung wearables operating on Tizen OS, specifically worked on multimedia and V8.
- ♦ Worked on Samsung Files (for android) to support cross-platform network file sharing using different protocols.
- ♦ Robot simulation project. Controlling movements and actions of *Ribo*, a robot controlled with Galaxy Tab S4.
- ♦ Baby crying sound detection on android and baby-monitoring devices using *Tensorflow-lite*.
- ♦ Collected sensor data from smart devices and applied it to detect certain gestures and biometric properties.

Honors and Awards

- Khoury Startup Fund, Northeastern University PhD fellowship worth \$5000.
- Co-authored and served as the PI on a project entitled "A Deep Learning Approach for Hate Speech Detection in Bangla Text and a Benchmark Dataset in Bangla". The proposed project won a research grant worth 2,30,000 BDT from SUST Research Center (Project ID: AS/2020/1/26).
- 3rd place in SAMSUNG Research ROBOT HACKATHON-2018, awarded 80,000 BDT.
- \bullet Monetary award of $\bf 30,\!000~BDT$ for passing Samsung's Professional Certificate Test.
- Notable performances on onsite competitive programming contests
 - ♦ ACM ICPC ASIA Regional, Dhaka Site 2017, Rank: 21, (SUST_PeakSeeker)
 - ♦ ACM ICPC ASIA Regional, Dhaka Site 2016, Rank: 11, (SUST_DeapThunder)
 - ♦ IUBAT IUPC, Rank: 4 , (SUST_DeapThunder)
 - ♦ BSCCL National Programming Contest (Hackathon) at UITS, Rank: 6, (SUST 1)
 - ♦ LU Inter University Programming Contest 2016, Rank: 4, (SUST_BlackJAM)

Skills Summary

Languages: Python, C++, java
 ML Libraries: PyTorch, TensorFlow
 Web Frameworks/Tools: ReactJS, Flask, Django

• Others: GIT, SQL, NoSQL(MongoDB), Android Studio, Unity2D, JASP

Services and Volunteer works

- Served as a reviewer for conferences ICLR-2024, NeurIPS-2024, and COLM-2024.
- Problem Setter, judge, and alternate solution writer for several programming contests; including NEUB Junior Inter University Programming Contest-2017, Varendra University Inter University programming contest-2017, and SUST Intra University Programming Contest-2017.
- Served as a core member of the consultant team for *Development of Health Service Management System for Sylhet M.A.G. Osmani Medical College Hospital*. Responsibilities included monitoring the requirement collection process and system architecture design.
- Served as a member of Undergrad Final Year Thesis/Project Evaluation Committee, Session 2019-20, 2020-21.
- Served as a core member of the Technical Sub-committee, SUST Admission Process in years 2020 and 2021.

Open Source Contributions: Contributed to baukit and nnsight.
